2. Reference Paragraph B(4) (YULIN HARBOR, HAINAN ISLAND, CHINA).

25X1A

a. [REDACTED] supplementary measurements were verified at PIC and showed the following:

(1). Vessel previously reported as "possible DD" is about 265 feet long.

(2). Vessels previously reported as "four possible DE" are each about 165 feet in length.

25X1A

b. In addition, the following was received from [REDACTED]

(1). Vessels previously reported as "three possible MSI" are each about 50 feet long.

(2). All eight vessels were berthed stern to quay; but since they appeared on far oblique photographs their profiles were not clearly discernible.

(3). Two cargo vessels rather than one, as previously reported, were noted in harbor.
